HARA FITNESS AND PROJECTS

Complete Fitness & Sports Infrastructure Solutions

EPDM (Ethylene Propylene Diene Monomer)

Rubber flooring is a seamless, non-toxic, UV-resistant, and anti-slip surface ideal for outdoor and indoor activity zones. It is the preferred solution for playgrounds, schools, jogging tracks, gyms, and multi-sport areas.

APPLICATIONS

- Children's Play Areas
- International Schools
- Sports Academies
- Jogging Tracks
- Clubhouses & Villas
- Apartment Amenities
- Indoor & Outdoor Gyms
- Daycare Centers
- Water Park Periphery

WHY CHOOSE HARA FITNESS & PROJECTS FOR EPDM?

- European Grade EPDM Granules (6mm thickness)
- Shock Absorbent & Injury Resistant
- Wide Color Range & Custom Designs
- UV-Stable & Weather Resistant
- Certified Safety Standards
- Expert In-House Installation Team
- End-to-End Execution - From base layer preparation to final finishing

OUR WORK SPEAKS

- 2-Layer SBR + EPDM Combo with Binders
